

Radiant Architectural Lighting provides innovative lighting for projects around the world.

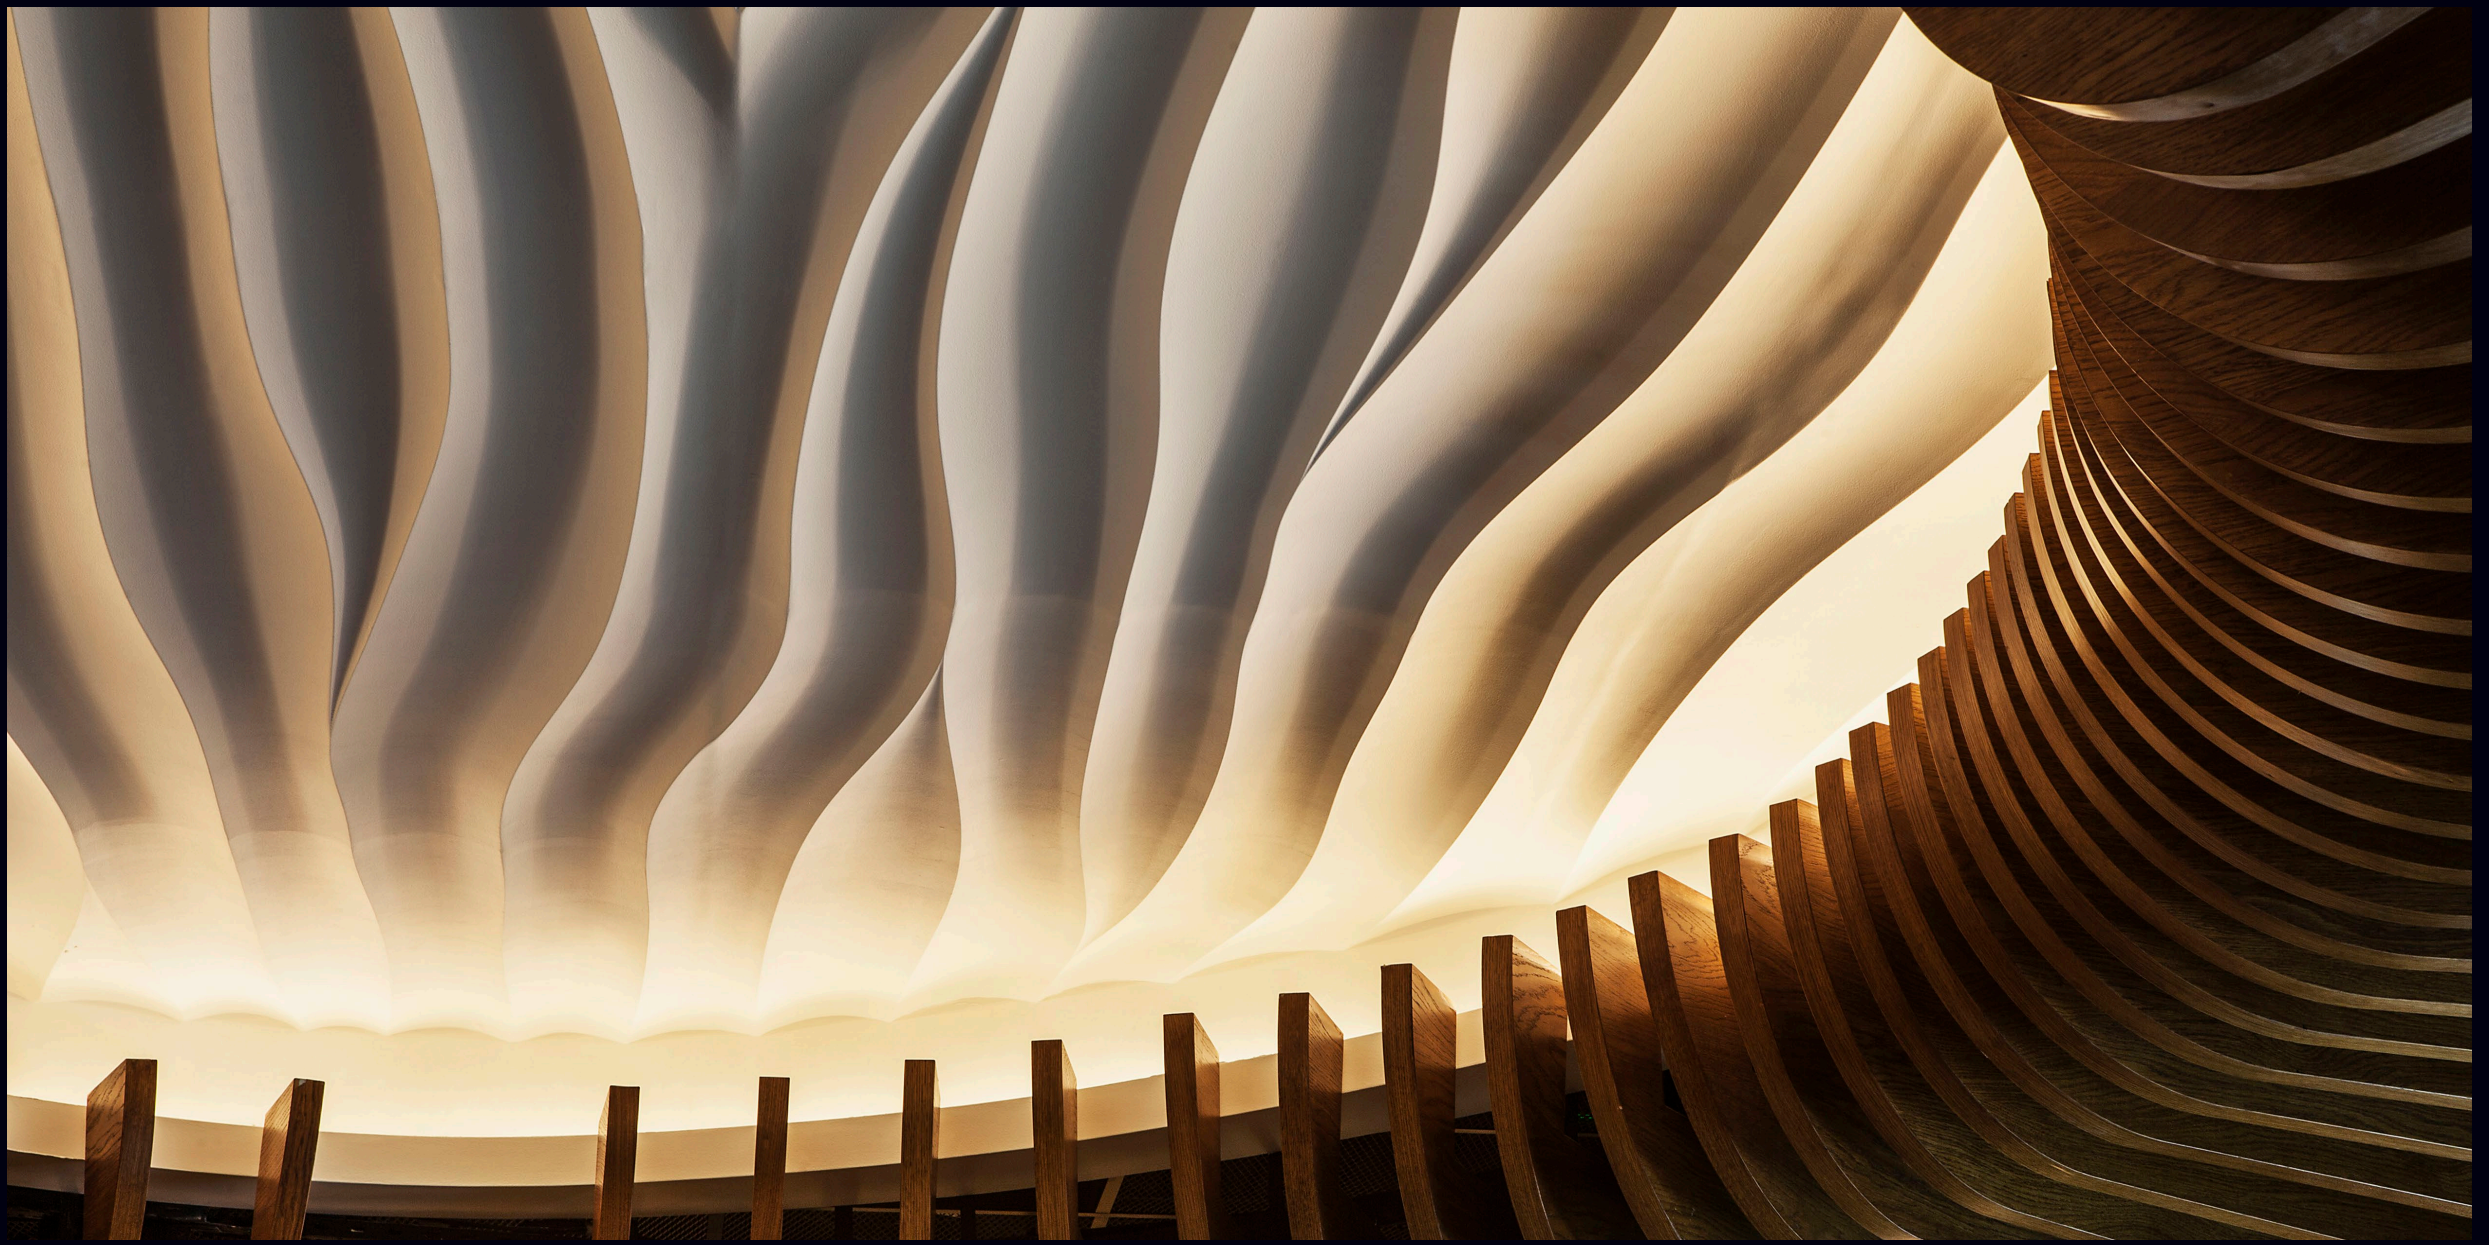

For more information about the lighting systems used on this project, or any other solutions from our extensive range, please contact our team by telephone on + 44 (0) 20 8348 9003 or by Email at david@radiantlights.co.uk and we will be happy to discuss your project or arrange a meeting.

Haz Restaurant, London

Haz Restaurant, London
Lighting design by Nulty

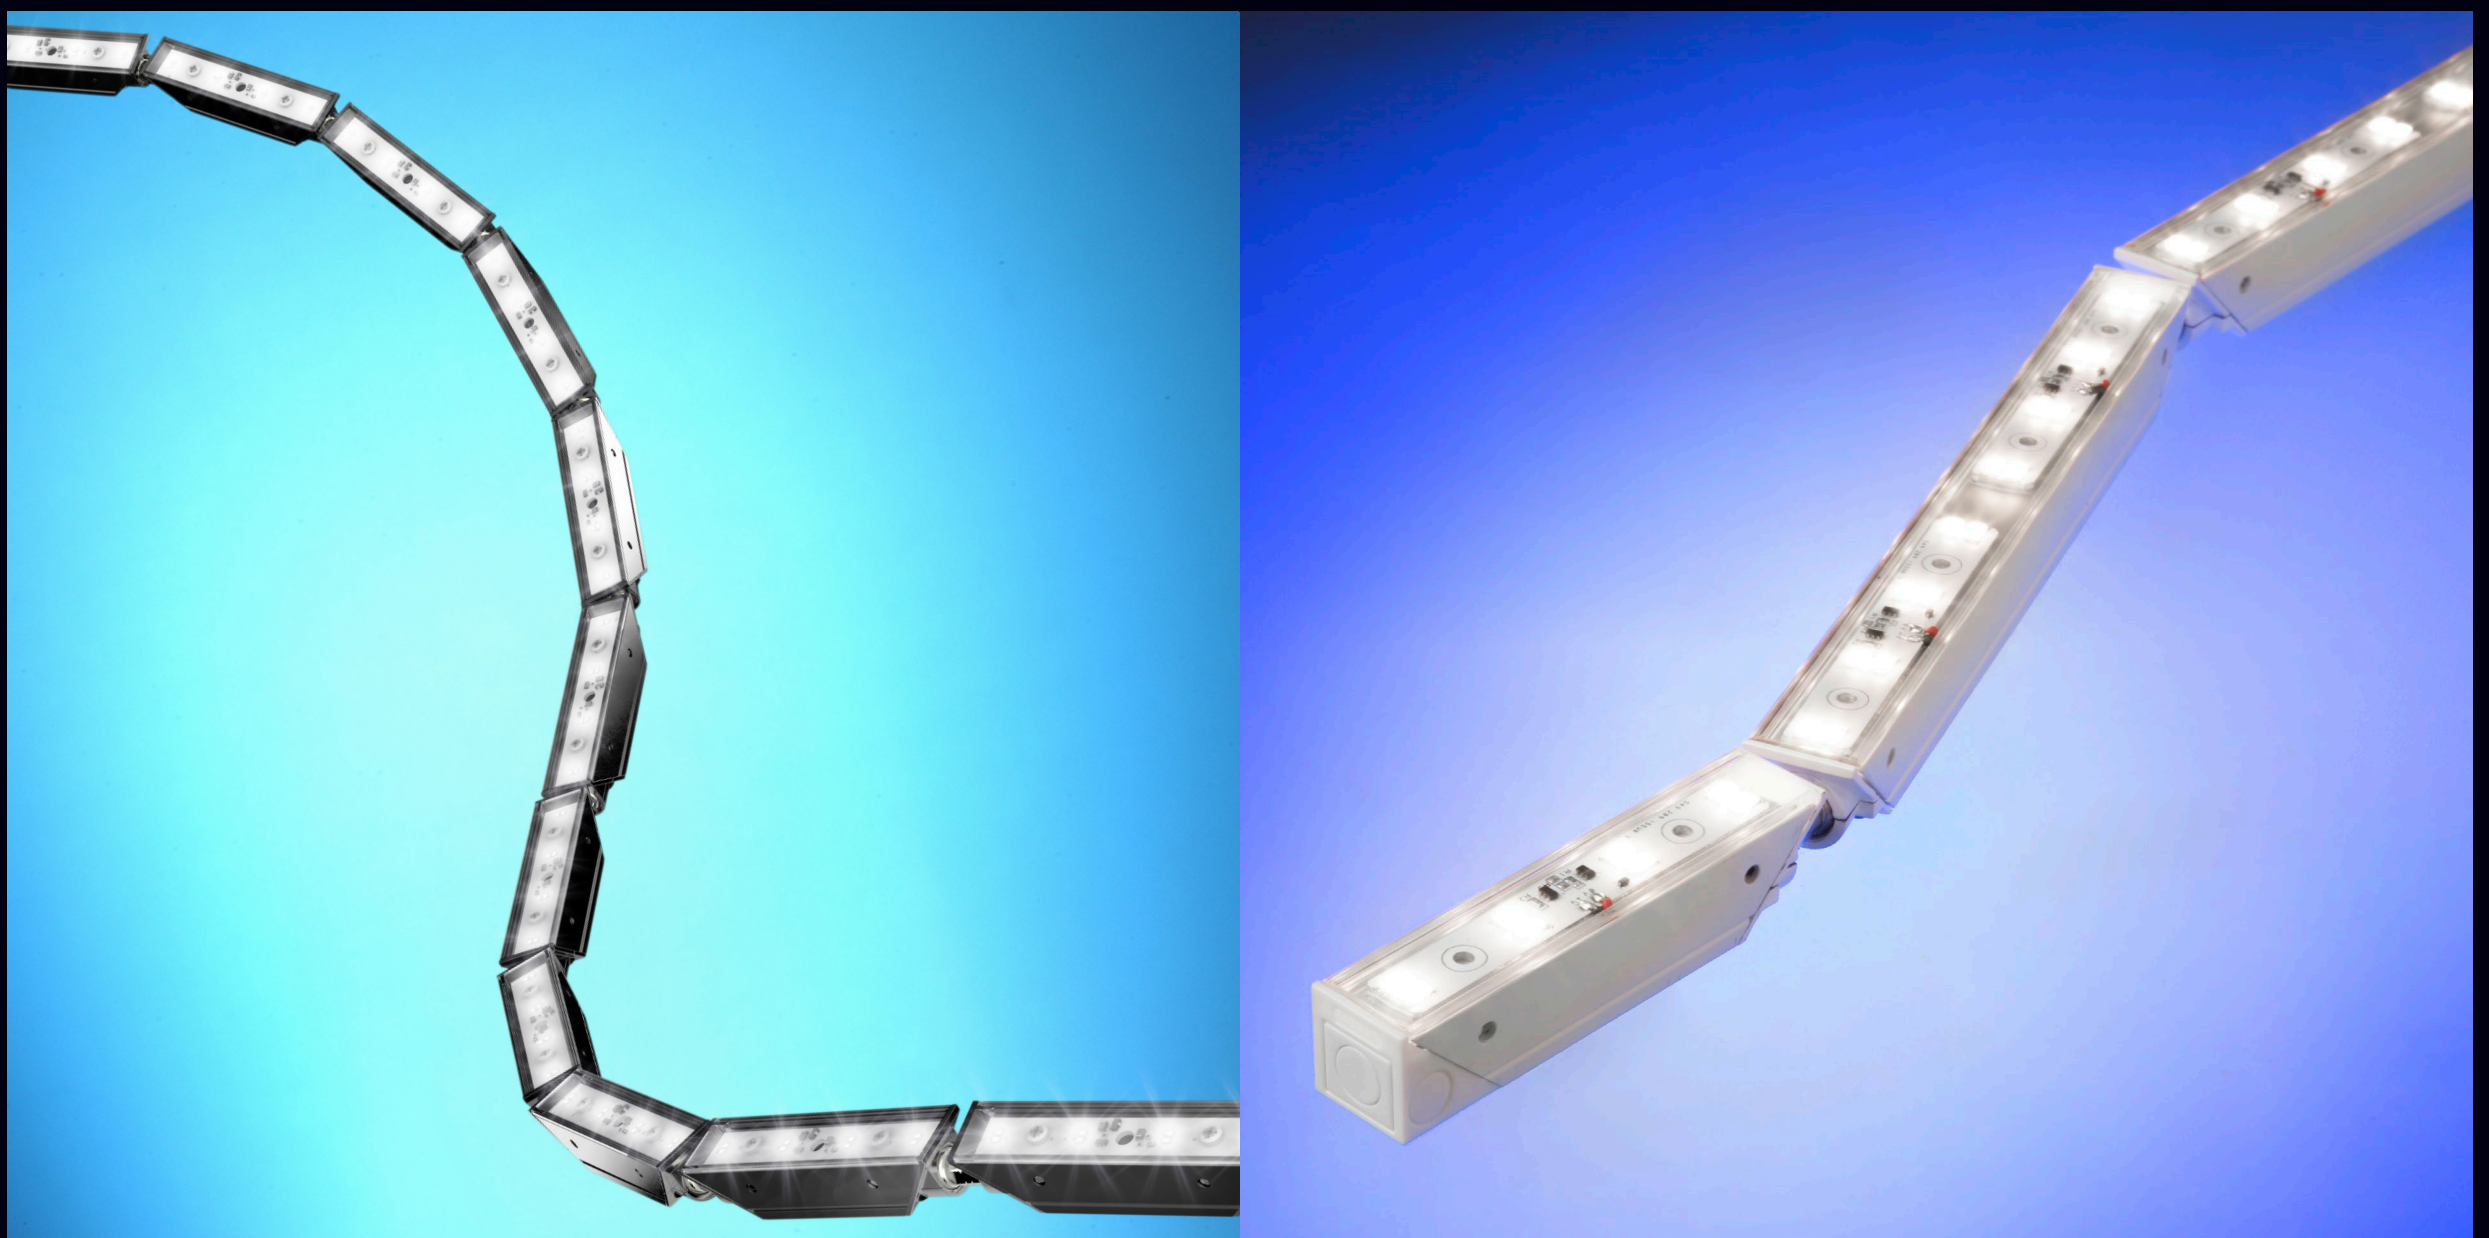

Radiant's Euclid 20 Balljoint IP20 System is installed around the edges of the curved ceiling features of the Haz restaurant, providing a wash of light onto the decorative plasterwork. The 3 dimensionally flexible system, which is hand-bendable on-site, follows the curved profiles of the cove details. Modules in any length based on a 100 mm module can be used to make up complete lengths of the system. The high-output version of the Euclid 20 Balljoint system is able to produce up to 3,500 Lumens per Mtr. The Haz restaurant project was shortlisted for the lighting category at the Restaurant & Bar Design Awards 2018.
